

Do-It-Yourself Kit

Step 1: Measure out the area you want to design and sketch up a basic blueprint on the included graph paper

Step 2: Take photos of the area

Step 3: Bring back your completed Do-It-Yourself Kit and let a Gill's plant professional help you choose your plants and other materials and fill in your plan to create a beautiful landscape design

Step 4: Plant it up!

TIPS FOR DRAWING YOUR SKETCH

- 1) Get accurate measurements rounded to the nearest foot
- 2) Make sure to include driveways, sidewalks, existing trees, existing plant beds, utilities, etc. in your sketch
- 3) Indicate the scale you are using in your sketch
- 4) Indicate which direction is north on your sketch
- 5) One of the most important factors in choosing the right plants is knowing the amount of sunlight exposure that the project area receives. Be sure to mark your project areas as full sun, mostly sun, mostly shade, or full shade

TIPS FOR TAKING PHOTOS OF YOUR PROJECT AREA

- 1) Take photos of your project area from multiple vantage points
- 2) Take some photos from up close, as well as some photos from further away
- 3) Bring your photos with you when you return with your completed Do-It-Yourself Kit. It is easier to design from printed out photos than from photos viewed directly on your phone or camera.

GARDEN INFORMATION

Briefly explain your project: _____

What do you want to accomplish? _____

What direction does your garden/area face? N S E W

How many hours of sun per day? Is the sun AM or PM? _____

Is it protected? Or in a windy area? _____

Description of soil (sandy or clay): _____

Does the area have good drainage? Is it usually wet or dry? _____

Any specific color preferences? _____

Any specific plant preferences? _____

What are your priorities? Here are some things to consider:

- | | | |
|--|---|--|
| <input type="checkbox"/> Screening/Privacy | <input type="checkbox"/> Child Friendly | <input type="checkbox"/> Vegetable/Herb Garden |
| <input type="checkbox"/> Wildlife Attractors | <input type="checkbox"/> Pet Friendly | <input type="checkbox"/> Water-Wise |

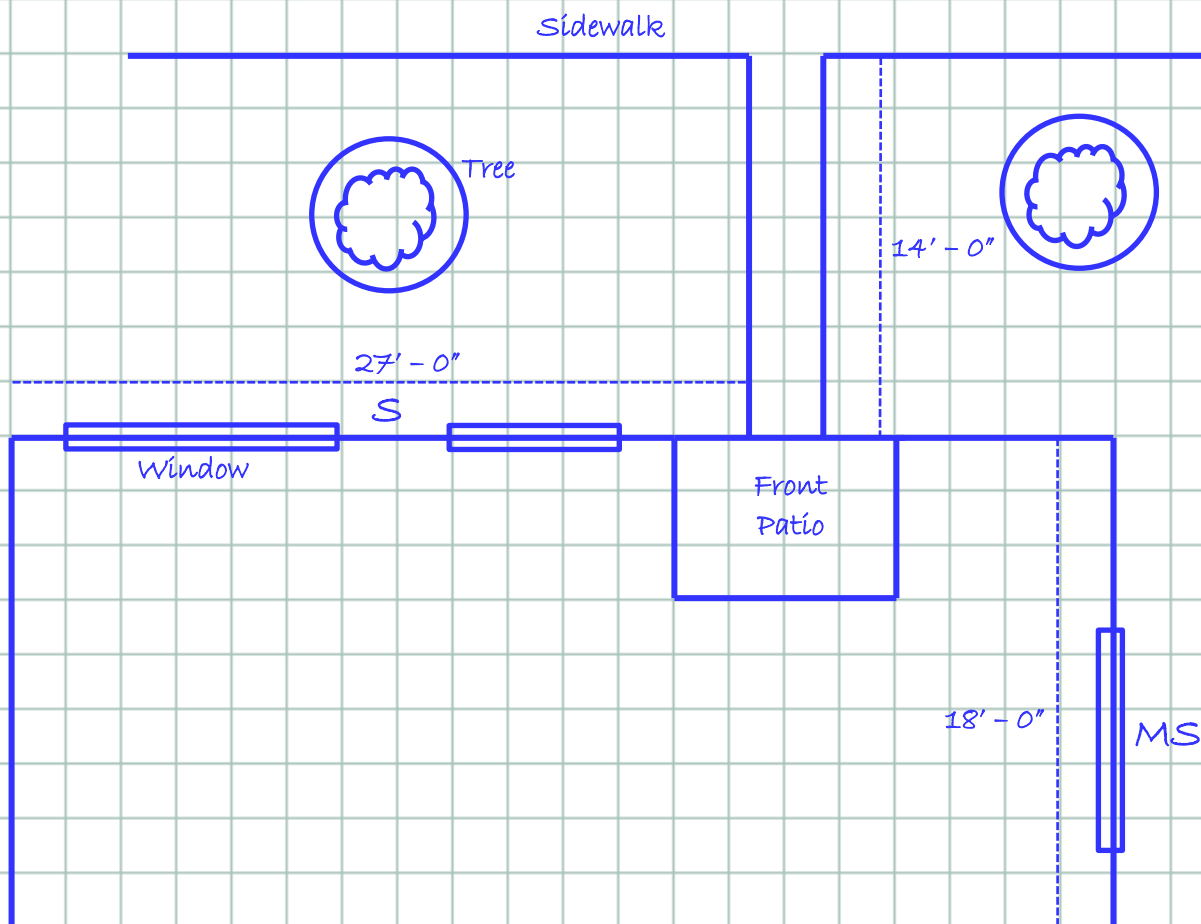

Any other priorities? _____

GILL LANDSCAPE NURSERY

Not sure where to start? See a style below that appeals to you? Your Gill's plant professional will help you find the plants to achieve the style you are looking for. Don't see your style in the options below? Describe it for us.

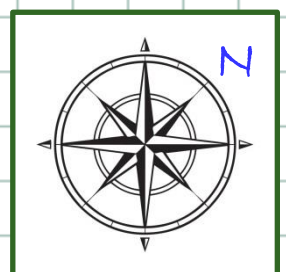

Example Drawing

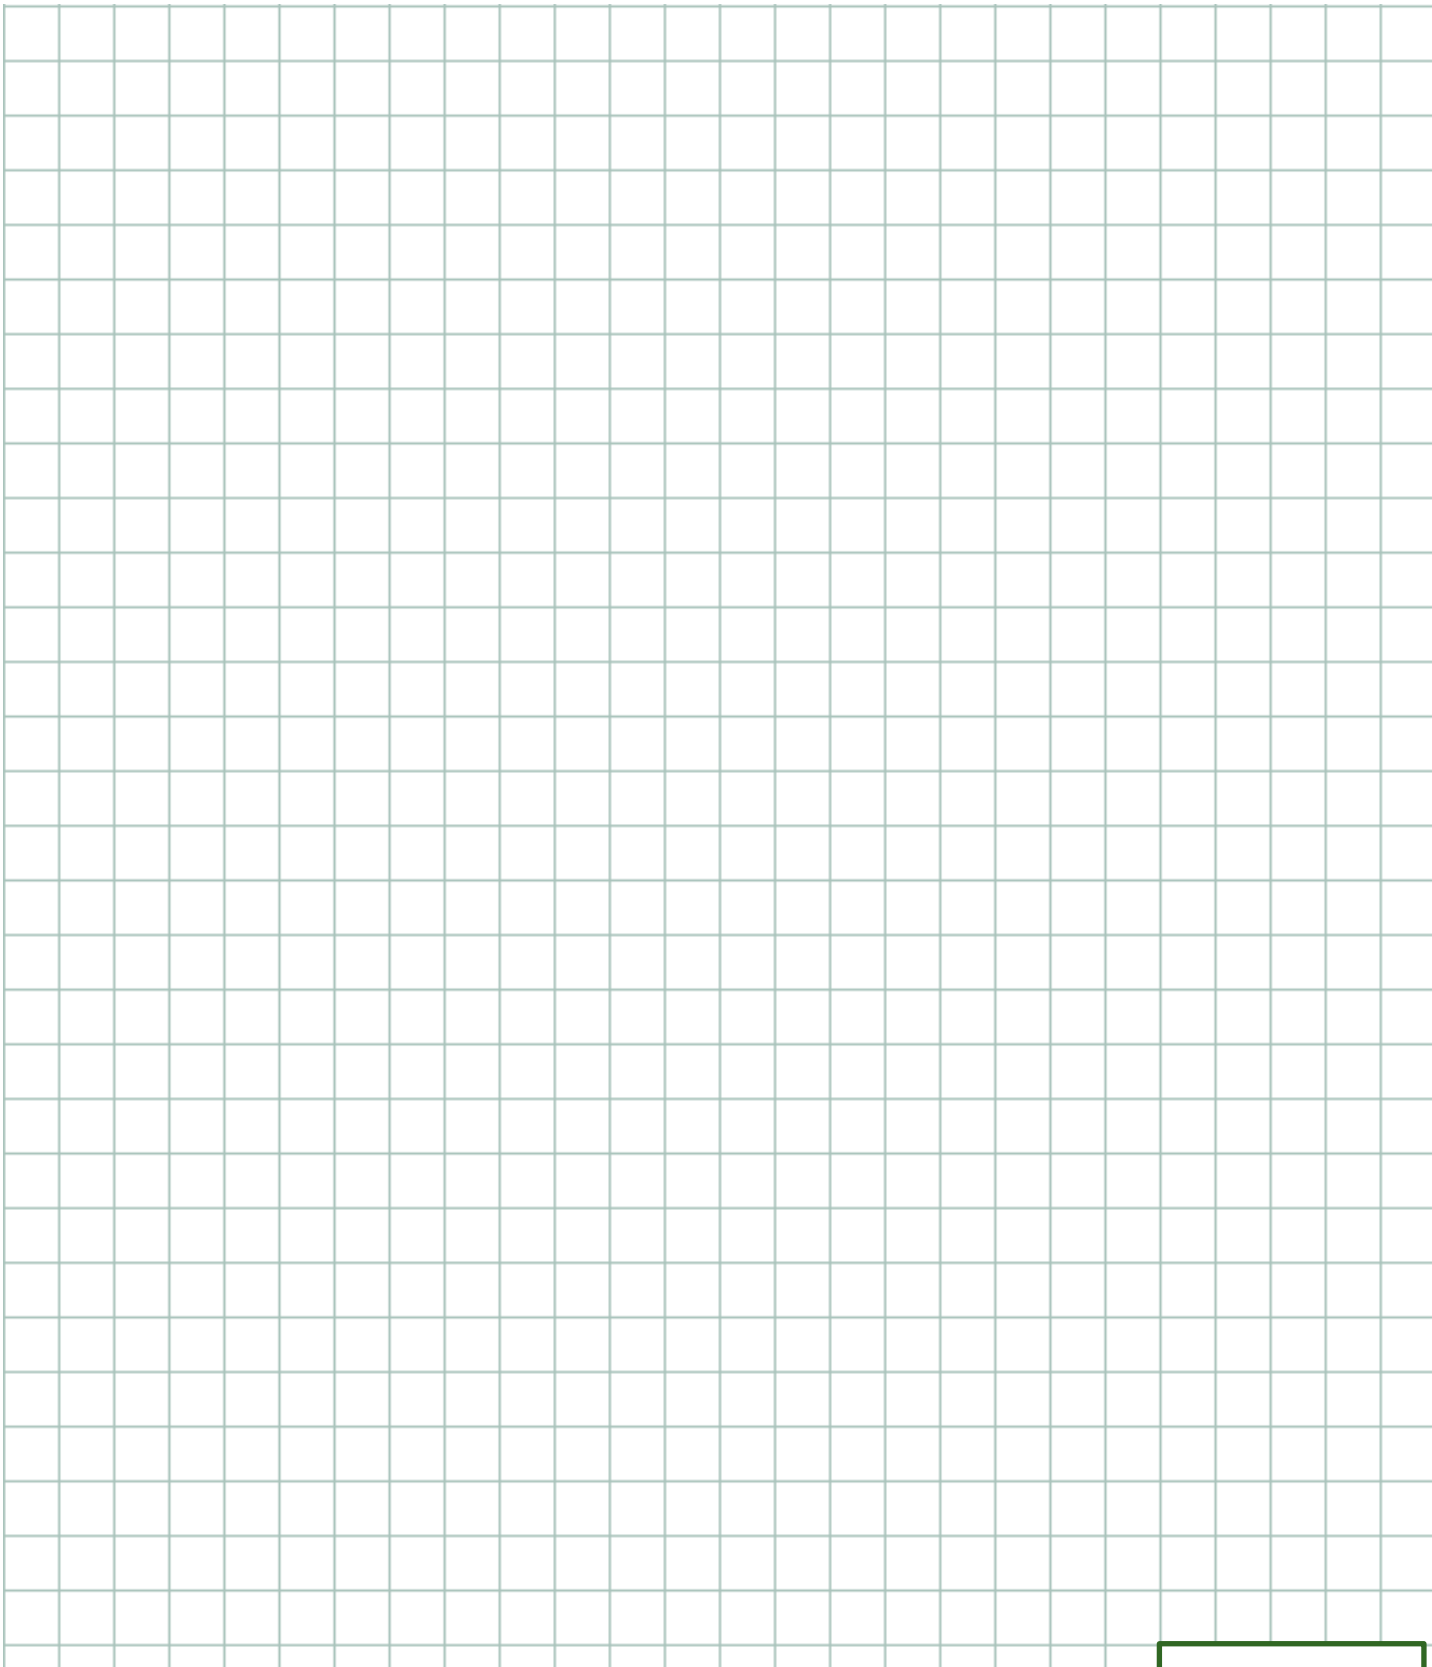

Mark the scale that you are using in your design:

- 1 square = 1 feet
- 1 square = 2 feet
- 1 square = 5 feet

S	=	Full Sun
MS	=	Mostly Sun
MSh	=	Mostly Shade
Sh	=	Full Shade

Mark the scale that you are using in your design:

- 1 square = 1 foot
- 1 square = 2 feet
- 1 square = 5 feet

S	=	Full Sun
MS	=	Mostly Sun
MSh	=	Mostly Shade
Sh	=	Full Shade
